Report of Superintendent of Police

TERRE HAUTE, IND., January 1, 1913.

To the Honorable Mayor, Board of Public Safety and the City Council.

GENTLEMEN:—As required of me by statute, I herewith submit for your consideration the annual report of the Department of Police for the year of 1912.

The automobile patrol, which was installed January 1, 1912, has proved in the twelve months it has been in service that it is much more efficient than the horses, and the cost of maintenance is less.

I desire to again call your attention to the immediate need of a police reporting system similar to the ones in use in all the cities larger than this city, and in a great many cities not as large as this city. The cost of installing this system on a small scale would not be great, and it could be added to as the needs required.

I also desire to call your attention to the ambulance in use at the present time. This ambulance has been in continuous service for about eighteen years, and at the present time is not in fit condition for ambulance duty. I would suggest that this ambulance be done away with, the horses sold, and an automobile ambulance purchased. Our experience with the automobile we now have in use would justify you in doing this.

In conclusion I wish to state that the discipline and harmony among the officers and patrolmen is better now than at any time in the history of the department, and I wish to thank the city and county officials for valuable assistance rendered during the past year.

Respectfully submitted,

DANIEL FASIG, *Chief of Police.*
